

## Bulk Delivery Truck (BDT)

### What

#### Bulk Delivery Trucks

are folding u-boat style carts with a solid deck and heavy duty casters.

### Who

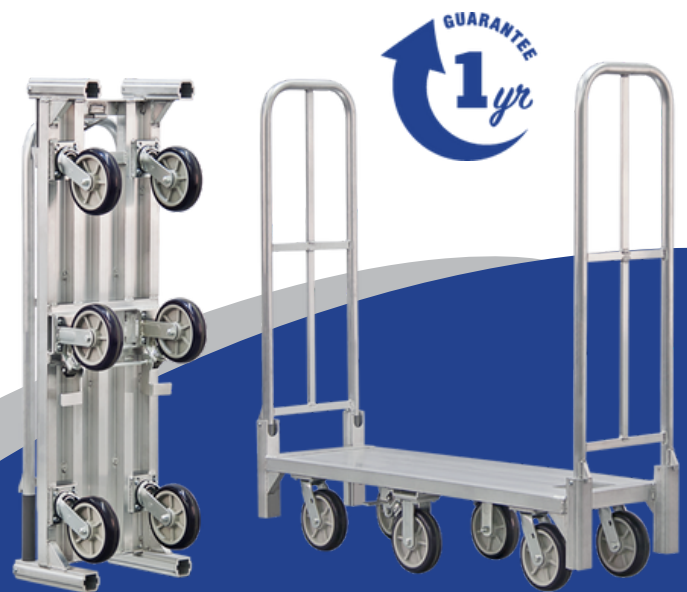

Beverage distributors, supermarkets, convenience stores, and organizations with limited storage space and needing more capacity than a standard hand truck.

### How

BDTs, preloaded by distributors, move inventory from docks to trucks and directly into coolers/stockrooms at delivery sites. Drivers secure folded BDTs inside truck as they're emptied. When route is finished, empty BDTs are unloaded and replaced with staged, loaded BDTs and process is repeated.

## Did You Know?

The Bulk Delivery Truck holds **5 times the capacity of a standard hand truck**, shortening the time spent at each stop on a drivers delivery route.

# DROP-IN KEG CARRIERS

## EFFORTLESS KEG TRANSPORT

Keg Carriers nest securely on our BDT Trucks for safe keg transport. They drop onto the deck and are secured into place by the sides of the deck and weight of the kegs. No tools required and is easy to remove.

Holds Half-Barrel Kegs

Holds Sixth-Barrel Kegs

***Keg Carriers & BDTs are Sold Separately***

**Lifetime Guarantee Against Rust & Corrosion on All Products**

**1-Year Guarantee For Workmanship & Material Defects**

# WHY ALUMINUM?

## BDTs

### Stage

#### Warehouse

- Orders are **pre-loaded** and securely wrapped.
- Orders are **verified**.
- BDTs are **loaded in reverse order** of delivery.

### Deliver

#### Customer

- **5X the load capacity** of a traditional hand truck.
- Unload & deliver **quickly**.
- Complete more deliveries in less time for **increased efficiency**.

### Store

#### Truck

- **Folds up** & stores compactly (< 2 ft<sup>2</sup>).
- Securely straps inside truck for **safe transport**.
- **Optimizes space** for other deliveries.
