Ladder Carts

NewAgeIndustrial.com

Standard Aluminum Ladder Carts

- Lighter and easier to maneuver.

Stock and pick with ease using our versatile Ladder Carts. Our unique continuous grip handle is extended to provide support when ascending and descending the ladder, with a reach bar across the top for worker safety while pulling product. Extra-wide steps are welded, and bolted in place and fitted with non-slip tape.

Heavy duty spring-loaded ladder is equipped with angled legs that provide full contact with the floor for stability. Legs are capped and welded to reduce wear before fitted with a rubber grip.

99640 - smooth top

Extra wide steps are welded and bolted in place.
- Fitted with non-slip tape for safety.

Ladder legs are angled giving them full contact with the floor.
- Cap ends of ladder are welded shut to reduce wear.

50061 - tray top

Tray-type top with raised edges help contain product.

Watch A Brief Product Demo

Our Ladder Carts are constructed of heavy duty, lightweight aluminum; Minimizing user fatigue and **guaranteed to never rust or corrode.**

Take it to the **NEXT LEVEL** With New Age **CUSTOMIZATION.**

Create your own standards with a New Age Custom product, built to meet your specific needs. Whether you have a custom tote, bin, or product you need accommodated, require a non-standard size, shelf configuration or braking system, we can help you design the perfect cart for your facility. Designing the perfect workstation for your employees can increase productivity, help alleviate fatigue and provide additional safety in the workplace. The New Age Custom Design Team is here to help create the ideal product for your situation.
