Stress-Free Customization
with New Age

Flexible Manufacturing

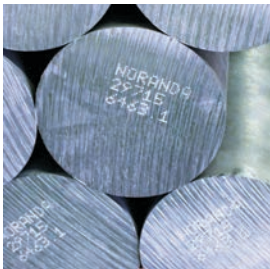

New Age Industrial aluminum products are durable, yet lightweight and will not rust or corrode. We serve a diverse group of industries including foodservice, supermarket, and material handling. Our robust portfolio features items for storage and transport including racks, carts, shelving units, dollies, tables, equipment stands and more! We specialize in product customization, providing solutions for each unique situation. New Age Industrial is dedicated to providing an effortless experience for all our customers.

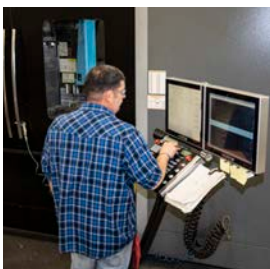

Whether it is one or ten thousand units, we will create a product that meets your needs.

Our extrusion press, design and fabrication abilities give us the flexibility to mass produce stock items and to build custom products that no other manufacturer offers.

More than just another supplier, We extrude our own aluminum to fit our customers' needs with our own extrusion press using only pure primary grade aluminum billet.

By controlling the extrusion process, we have unlimited flexibility in product design and durability.

New Age is focused on building aluminum products only, insuring that all our welders are highly skilled at giving a precision weld joint every time.

We use state of the art computerized equipment to maintain the high quality standards that are essential in the manufacturing process.

“ Our unmatched versatility in product design and fabrication make New Age Industrial the top choice. ”

NewAgeIndustrial.com

Take The Lead

Don't settle for standard stock items like your competition. Take the lead by offering custom solutions designed by you and built by New Age Industrial. Work one-on-one with an in-house design engineer to create cutting-edge custom equipment built to your specifications.

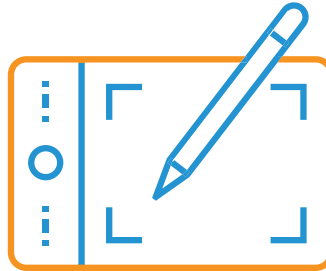

Custom Products
account for
Over 30%
of our Yearly Sales.

Because
we have made it
Easy.

HAVE AN IDEA

Customer has an equipment need that you have a possible solution for, but it is not a standard item.

SKETCH IT OUT

Make a simple sketch or line drawing of what the equipment will look like.

WRITE IT DOWN

Describe your new equipment idea and explain why it is needed.

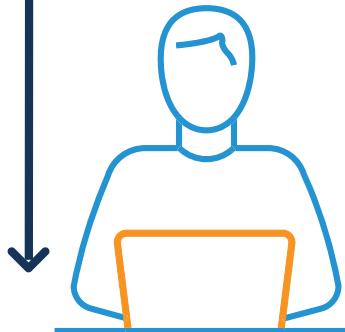

SUBMIT IT

Email us at:

sales@newageindustrial.com

and we will partner you with an in-house engineer — Ready to assist with custom product design, product modifications, questions and more!

Look For

This signifies that these products are customer-designed equipment solutions. Read a little of the background story behind each product and the production process.

53757 | Scrap and Stack

And the winner is... The Scrap and Stack!

The award-winning design was created by the Child Nutrition team at Fulton County Schools in Atlanta, Georgia, under the direction of Alyssia Wright, Executive Director of School Nutrition, with the assistance of Claudia Harry, New Age Industrial's factory representative with The Hansen Group.

Scrap...

Simply roll the unit in place and scrape leftover food, through the cutout in the solid top, into the scrap container below.

And Stack.

Steam table pans are stacked, two wide, and contained within the top rail. Sheet pans are stacked just below the top deck along with a removable soiled utensil container.

Can Storage

Eliminate searching through piles of unorganized stock and crowded shelves.

Now you can store a LARGE amount of cans in a SMALL amount of space.

1235 | Can Rack - Counter Height

Holds: (54) #10 Cans

(72) #5 Cans

Just Squeeze

This rack is designed for food preparation and set-up using standard size sheet pans.

When the job is complete, fold it up and store it. No tools are required like with traditional, "knocked-down", racks.

- Folding Bun Pan rack with 3" spacing used for preparation and storage, not transportation.
- This units folds to make it ideal for set-up and preparation for off site and non-traditional locations.
- Holds 18" x 26", 13" x 18" and 14" x 18" pans.

98678 | Folding Pan Rack

Folding Racks take up

1/3

the storage space of Standard Racks!

Every school, district, and meal program is unique. Let us build a cart that meets your needs. Contact us today to get started!

Designed by You, Delivered by New Age.

53155 | Chicken Breeding Cart

This Chicken Breeding Cart was designed to meet a national sandwich chain's specific needs for a new chicken breeding station.

The original drawing was a hand line drawing with specs on the containers to be used in the cart. There were several revisions to get to the final design.

The cart was tested successfully in the field but the customer decided to go a different route that didn't require a cart.

Created to store dough-loaded pizza pans into the walk-in cooler for use during the high volume parts of the next day.

Pans are stacked on six shelves, two channels running front to back, with 12" spacing. Rear pan stop (running from top to bottom), and flip-up pan stop on top shelf, keep pans in place during transport and storage.

Unit is knocked down to provide affordable shipping for franchisees.
