These aluminum pallets will outlast plastic 10 to 1!

New Age Industrial manufactures pallets made from primary grade aluminum, extruded on site at our factory in Norton, Kansas. Aluminum is a lightweight, sturdy material that resists rust and corrosion. End users can easily scrap or recycle unwanted pallets for one final return on your investment!

Channel Pallet 99557

Specifically designed for easy cleaning and sanitation, these pallets are made channel and have no enclosures that trap dirt and debris.

Dimensions = 40"W x 5"H x 48"D

Tube Frame Pallet 99613

Designed to be accessed from any side, our Tube Frame Pallet is easily stacked or nested with alike pallets.

Dimensions = 40"W x 5 1/4"H x 48"D

Custom Pallet Options

Strap-Base Pallet DWG53095

Pallet with Cover Removable, Perforated DWG53096

Dunnage Racks

DWG53726

Mobile Dunnage Rack with a **Custom Tow Hook**, Drop-In Handle (1208), and a Drag Hook (1199) for additional control.

Dimensions:
20" D x 39 1/4" H x 37 3/4" L
Deck = 20" W x 36" L

Classic Dunnage Racks from our Standard Series. Constructed of 1 1/2" x 1 1/2" x .070" thick tubing, extruded on site from primary grade aluminum. Feet are outfitted with plastic caps to keep dirt and debris out.

Available in dozens of sizes and three styles, find your ideal Dunnage Rack here:

Easily turn your Dunnage Rack into a step stool!

Dunnage Rack Covers easily nest over your dunnage rack and are available with or without the anti-slip, raised tread.

51101

Tread has 3" O.C. Spacing and a disrupted elevation of 3/16 of an inch.

Ergo Stands

The design of common elements, such as workstations, have a significant impact on the occupational health, safety, and wellbeing of workers. Many jurisdictions now place a legally enforceable duty of care on designers and employers to ensure a safe work environment. These lightweight, aluminum stands help level the height differences between employees, providing a safe and comfortable work height for everyone.

Still can't reach?
Try our picking poles!

DWG51797

Designed to easily hook and pull boxes within reach.

- Double handles offer precise control.

Dimensions = 7" W x 3" H x 30" D

DWG50917

Designed for moving jammed boxes on a conveyor belt.

- Includes a rubber handle grip.

Ladder Carts

Designed specifically for high volume retail warehouses, our ladder carts feature ergonomic handles for easy ascending and descending and a unique "shin-saver" design that allows carts to be maneuvered without kicking a step.

Safety is a priority; carts are equipped with reach bars and spring-loaded stops that keep the cart in place when the ladder is in use.

The reinforced feet are designed to make full contact with the floor and come equipped with rubber shoes.

99555

Dimensions =
22" W x 69½" H x 51½" L
Shelf Spacing = 13½"

DWG53266

Optional six-wheel design provides a zero-turn radius that allows the cart to be maneuvered easily through tight spaces, like narrow aisles.

Carts are outfitted with solid aluminum shelves that allow boxes to slide on and off with ease.

Dimensions =
24¾" W x 46½" H x 50¹³/₁₆" L
Shelf Spacing = 12¾"

10-Lug Dolly

1264

Vertical Storage with a small footprint, holds up to ten lugs!

- Sealed tube, all-welded frame construction.
- Lugs are supported from the bottom.
- Available in several sizes and configurations.
- Lifetime Guarantee against rust and corrosion.

Dimensions: 29½" W x 62" H x 33" D

Carts and dollies support lugs from the bottom...

Lugs

RGY16825

- Excellent for organizing.
- Lugs work with all New Age dollies!
- Formed bottom allows for cross stacking.
- Optional lid available - **0361**

Dimensions = 15½" W x 8¾" H x 25" L

Lug and Store Cart

DWG53658

Lugs are held at a comfortable working height, with room for addition lug storage that is easily accessed by users.

- Shelf clearance 14¾ inches.
- Includes a tubular base and an ergonomic handle.
- Heavy Duty 8" casters, two swivel and two rigid, make maneuvering easy.

Dimensions = 24" W x 42¾" H x 51" L

Slant Picking Cart

DWG50548

Designed for easy maneuvering through tight spaces and aisles, this narrow cart is equipped with a fifth, spring-loaded caster, centered for zero-radius turns.

T-Bar shelves are sturdy and provide a smooth surface for totes to slide easily. Top shelves are slanted for visibility and easy product selection, includes stop bars to prevent totes from sliding off the cart during transport. Level bottom shelf with stops provides additional storage space that is easily accessed by users.

Equipped with a writing ledge, clipboard, ergonomic handles, and a bin for documents or tools.

Dimensions = 18"D x 60"H x 49"L

Two-Tier Gardener Cart

DWG53244

This custom cart features a unique second handle that also doubles as an extension for the top shelf when transporting larger loads.

Both shelves are constructed of heavy-duty T-Bar that provides a smooth surface for easy loading and unloading, as well as a sturdy shelf that isn't weighed down with unnecessary bulk. Includes six-wheel caster design that implements a zero-turn radius for easy maneuvering.

Dimensions = 23¾" W x 41½" H x 82" L

Multi-Bin Picking Cart

DWG53293

Dual-Sided Parts Cart with large shelves on one side and small bins on the other; easily organize, find, and access parts and other stored items. Equipped with a writing ledge, ladder hook, mounted clipboard, and dual-grip handles – providing the optimal, custom-created workspace.

Transport Cart

DWG52747

Customer-designed, custom-made transport cart with fold-up divider arms and a rubber mat to reduce noise and part slippage during transport. Equipped with 5" casters and a 12" fork pocket for efficient moving of parts.

Dimensions = 18" W x 60" H x 49" D

Shown with drop-on shelf: DWG52747S

Designed to maneuver easily through narrow spaces, the five-wheel base provides a zero-turn radius that is perfect for moving parts around a service bay – eliminating multiple trips.

Dimensions = 44"W x 63"H x 18"D
