1296PCDRGREEN

*Available Colors*

Powder-Coating offers a procedure for managing allergens by clearly labeling allergen-free options.

Clear and visible allergen indicators improve communication and assist both customers and staff in making informed decisions, thus significantly reducing accidental allergen exposure and enhancing the safety of the dining experience.

New Age offers several powder-coating options. Contact us for more information and to get started on reducing your allergen risks today.

Requesting a powder-coated product is easy!

Several of our products can be fully or partially powder-coated.

Contact our in-house design team for a free quote.

- ✓ **Reduce the Risk of Cross-Contamination.**  
Color-coded equipment helps prevent the mixing of products.
- ✓ **Allergen Control.**  
Allergen and allergen-free products assigned their own colors to avoid confusion.
- ✓ **Speed-up Training and Onboarding**  
Colors act as a constant visual reminder of the zone and application equipment has been assigned to.
- ✓ **Improve Audit Preparation**  
Use color-coded equipment to establish a visual audit trail, showcasing that proper procedures are in place and best practice is being upheld.
