

Slanted Picking Carts

53993

Increase your productivity...

These Slanted Picking Carts with ergonomic V-shaped handle offer several benefits for various industries and applications, especially in environments where workers need to pick and transport items efficiently.

Designed with three shelves, that hold three lug tubs each, for a total of nine (9) lug tubs. Great for sorting product with easy loading into the slanted tubs, allowing the operator enhanced visibility to see inside each tub.

5" Castes

Ergonomic Handle

Ergonomic Picking Carts that keep people safe, comfortable and productive.

Angled Shelves

See products without having to crane the neck or bend over.

Shorter Reach

Moving products to the front of the shelves shortens the reach and makes it more comfortable for workers.

Multiple Shelves

Having multiple shelves at different positions can vary arm and hand movements, which reduces the risk of repetitive motions that can contribute to musculoskeletal disorders (MSDs).

The Tote Delivery Cart has angled shelves that secure totes to keep contents visible for quick identification and accessibility.

The angled shelves keep the totes sloped and the contents within always at the front of the container for easy picking.

Typical uses include stock rotation and assembly applications where there's a need to store, organize, and distribute items.
