TABLE ACCESSORIES

Table Mounted Boat Rack

Structural aluminum mesh is welded to the tubular frame. Cantilever design supports the rack from the rear providing unobstructed access to a saw or wrap station positioned on either side of the table. Easily adjustable to a 10° rear tilt.

Boat Rack Divider

All aluminum tubular boat rack divider allows for efficient separation of boats and provides additional stability for tall stacks. Slides easily from side to side to accommodate varying boat sizes.

Paper Holder

Provides convenient access to paper. Constructed of ¼" x 1" aluminum, the paper holder quickly attaches to the Boat Rack and is removable for easy cleaning.

Stainless Steel Backsplash

Adds the convenience of a third hand and eliminates the concern of product or utensils falling behind the table.

Constructed of 16 GA. type 304 stainless steel with closed and welded ends. Removable for easy cleaning even with boat rack attached.

Utility Drawer

This durable thermoplastic utility drawer is removable for easy cleaning and features a rugged handle and drawer stop. Simple installation with included hardware.
